

PRESCRIPTION VERIFICATION

During your interview with the MRO, it was determined that you have a legitimate prescription.

You will have 5 days to submit documentation supporting the medication discussed is a current active prescription being prescribed to you. Current means a medication that was prescribed or dispensed by the pharmacy within the past 12 weeks and pre-dates the date of the drug test.

Acceptable documentation may be:

A panoramic photo of your prescription taken showing the full prescription label - must be a single image.

OR

A note from your physician simply stating "I am currently prescribing this medication" – signs, faxes or emails it.

OR

A similar note from the pharmacy stating they are dispensing this medication, a printout or receipt showing this medication was recently dispensed to you and must be **signed by the pharmacist**.

This note is to be faxed or emailed to our office. **It will be your responsibility to ensure we receive such a note**. You may check the status of your result to confirm receipt of your prescription or note on our website – www.imtmro.com/donorstatus. You will need your specimen ID number found on your chain of custody form to be able to search for your status.

Finally, If you feel the lab made an error, you may have the original sample, again original sample, retested at another laboratory. To learn more - View document [Reconfirmation](#) .
